Mr. Gale reported that the number of cathode ray tube televisions brought to the recycling center were down in January. In January 240 tons of material were brought to the recycling center. Mr. Gale reports that paper and cardboard prices were up in January which is a continuation of a 5-6 month trend of increased commodity value.

Ms. Jones said she feels there is still a lot of confusion regarding what is and what is not recyclable. She asked if fliers could be developed to inform consumers about what can be accepted and also asked if better signage could be installed to outline what electronics are recyclable. Mr. Gale said his company has fliers at the recycling center and have previously discussed better signage to outline what can or cannot be accepted.

Mr. Sudbrink discussed adopting a proposal that would require commercial haulers to purchase permits to bring materials to the recycling center. He said the County needs to develop an equitable charge and would like to bring something forward. Mr. Denkenberger asked what the start-up cost of hiring someone to oversee the recycling permit program. He discussed the threshold for levying a charge. Mr. Ernst said the fee could be set on a base rate or could be based on tonnage. Mr. Sudbrink said that would require someone operating the scale at the recycling center. Mr. Krey suggested basing the cost of the permit on the type of vehicle that is used to transport the material.

Ms. Jones said the County should not be accepting recycled material from outside the County. Mr. Ernst said the more volume coming into the facility reduces the loss the County incurs on commodity pricing. Ms. Jones said she is concerned that adding recycling fees will promote more illegal dumping.

Revisions / Amendments to Proposed Local Law a of 2017-Accepting Contiguous County Trash

COMMENTS - Current Meeting:

Ms. Discenza asked Ms. Howe if she had reviewed proposed amendments to the local laws. Ms. Howe said she had reviewed the proposed amendment related to the acceptance of incinerator ash. Mr. Sudbrink said the intent of the amendment regarding incinerator ash is to assuage concerns related to the acceptance of the material. He said statements have been made that the material could be brought in and that these local laws particularly the law to accept contiguous trash is simply a backdoor method to begin receiving ash. He said he wants this amendment in place requiring Legislative approval to receive ash in order to let the public know we are not sneaking this material in as some have suggested. Mr. Troy said he supports the amendment, while he supports ash and hopes in the future the Legislature moves to accept it but he doesn't want anyone thinking we're sneaking any ash in without proper deliberation.

Mr. Sudbrink moved to amend the resolution to require Legislative approval in order to accept incinerator ash at the County Landfill. Mr. Troy seconded the motion. All in favor, none opposed.
